## INTRODUCTION

In the last 20 years, the mammoth task of extracting oil from the Bombay High has advanced the Science & technology of Underwater Engineering at an extraordinary rate. Tasks, often requiring specialist skills within an alien environment, are often carried out which could not have been contemplated 20 years ago. In consequence, there has been an ever increasing demand for skilled personnel, from tradesmen to engineers, who are able to exercise their particular skills in the underwater environment.

Although the impetus for this underwater engineering advancement is a direct result of work in Bombay High, the whole of the underwater construction Industry has benefited with the availability of the new techniques and a new breed of highly trained divers with specialist skills. There are now many new tools available which can carry out particular functions better and faster, but none has the overall sophistication and flexibility of the properly trained diver.

## ABOUT US

United Divers was established on April 6, 1988 to provide cost-effective, safe and quality service to meet the various requirements of Sub Sea Engineering, Shipping, Energy, Petrochemical and Offshore Construction industries.

The company has gradually progressed from a company whose main forte was to provide skilled divers during its beginning to a company which excels in providing all resources for underwater engineering and non – engineering services.

The equipment, resources, know how and expertise of the company make it one of the leaders in its field, and the experience of years of work and a vast variety of contracts ensure, that work is carried out both efficiently and cost effectively to the entire satisfaction of clients. Our company strives to improve its capabilities through acquisition and use of the most modern technology and procedures. The Company has earned a reputation for reliability and high quality of professionalism in the complex field of diving.

Lately, our company has also stepped into the field of Marine services.

We currently own a supply vessel and are in the process of acquiring more offshore vessels.

## WHAT WE DO:

Our services include supplying equipments for diving and providing divers for various underwater works. We also undertake turnkey projects, which involves, provision of all diving services including dive personnel support along with all necessary diving equipments along with a vessel for diving purposes.

# UNITED DIVERS PRIVATE LIMITED
